Plans Filed for Remodelling the Four Story Dwelling at No. 16 West Fortynith Street Into a Seven Story Com-mercial Building—Uptown Let Deal.

Business was almost at a standstill in the real estate market yesterday. Several flats and a building site on Washington Heights composed the holdings that were dealt in at private contract. The few sales in the auction room were held in pursuance of foreclosure suits. There was no effective bidding and the equities of the mortgagors were consequently wiped out. No plans for new buildings were filed either in Manhattan or in The Bronx. Permits were issued for a rather unusual alteration job at No. 18 West Forty-fifth street, where four story dwelling is to be remodelled into a seven story commercial building.

150TH STREET.—O'Reilly & Dahn and Arthur G. Muhlker have sold for the Murphy estate to Charles B. Gumb the plot, 100x99.11, on the south side of 150th street, 100 feet west of Amsterdam avenue. Mr. Gumb has resold the plot to a client of Warren & Skillin. Skillin.

FIFTH AVENUE.—Thomas Weinberg has resold the five story flat, on lot 24.11x110, at the northwest corner of Fifth avenue and 134th street.

156TH STREET.—F. E. Barnes has resold for Frank Schwartz to H. Kennell No. 528 West 159th street, a five story flat, on lot 25399.11.

AND STREET.—The Butler & Herrman Com-143D STREET.—Ine Butler a Herrman Com-pany have sold for a client to Arthur M. Saunders No. 147 West 143d street, a six story flat, on plot 37.0x99.11. NINETIETH STREET.—John Lucker has sold for J. Weller to H. Kuckmann the five story double flat at No. 323 East Ninetieth street, on lot 25x102.2.

Miscellaneous.

Sarah Knight is the buyer of No. 46 West Forty-ninth street. Columbia College lease-bold, the sale of which by Francis W. Griffith, administrator, was reported yesterday. E. H. Wendell & Co. were the brokers.

H. P. Simmons & W. C. McNaughton have taken offices in the Hudson Terminal building, No. 30 Church street, where they will conduct a general real estate business.

The Dyckman Taxpayers Association will hold a meeting this evening at 8 o'clock at the office of John N. Golding No. 547 Fifth avenue.

Building News.

Plans have been filed with Building Superintendent Murphy for remodelling the two
story and basement dwelling and store at
148 East Fifty-seventh street, adding a two
story and basement extension. The improvements are to be made at a cost of \$6.500,
for the Adler Granite Works as owner. Kleinberger & Gross are the architects.

Plans have been filed for making over
the three story residence on Bolton road
west of Prescott avenue into a two family
dwelling, the improvements being made for
the Bolton Realty Company as owner. The
architect is 1. F. J. Welher, Jr.

B. W. Levitan has filed revised plans for
remodelling the two three story dwellings
at Nos. 218 and 220 West 130th street into a
synazogue with meeting rooms, the change
of occupancy being made for the Hebrew
Tabernacie, now occupying part of the
premises.

Plans have also been filed for remodelling

Tabernacie, now occupying part of the premises.

Plans have also been filed for remodelling the four story and basement residence at No. 16 West Forty-fifth street into a seven story commercial building with an ornamental front, the change of occupancy being made at a cost of \$22,000 for Mrs. Leah P. Norton as owner, and for modernizing and remodelling the six story loft building and two six story tenement houses at Nos. 166, 168 and 168% Delancey street and making the foundations conform to the new grade of the plaza, the projected improvements being made at a cost of \$15,000 for Michael Minden. Charles Rose and Herman Leiman as new owners. Maximilian Zipkes is the architect.

No plans for new buildings were reported No plans for new buildings were reported in either Manhattan or The Bronx.

TRAFFIO PROBLEMS ABROAD. P. S. Commissioner McCarroll Comments on Things He Saw in Europe.

Public Service Commissioner McCarroll, who, with Chief Engineer Henry B. Seaman has just returned from an inspection of the transportation systems of London, Paris and Berlin, resumed his duties yesterday and had something further to say about the traffic systems of Europe.

"The traffic problem in London," he said, "is so different from that in New York that a comparison is hardly possible. They

a comparison is hardly possible. They have no such congestion during "rush" hours as we have here for the reason that the lines of travel are diversified and all the traffic is not confined to one direction in the morning and the opposite at night, as is the case in New York.

*One thing that impressed me very favorably was the method of discharging passengers from the underground railroad. This is accomplished by elevators holding from 50 to 100 persons each, but the elevators have doors on each side so that the passengers get in on one side, walk to the opposite gers get in on one side, walk to the opposite side of the car and when it reaches the surface get out on that side. This does away with the crowding about the door, so common in our single door elevators."

As the underground roads in London have only two tracks there is no corporate. As the underground roads in London have only two tracks there is no express service, and in that respect the New York subway is far ahead of the London tubes. The subway cars in London are equipped with three doors, one at each end and one in the centre, with the result that passengers are discharged quickly. Mr. McCarroll said that the rate of fare averaged about a cent a mile and while all of the underground roads in London were not paying it was exroads in London were not paying it was ex-pected that all would eventually become paying propositions. Mr. McCarroll went

"The attention given to ping system."

The attention given to ping a proposition.

The London tramways, which correspond to our trolley railways, are owned and operated by the London County Council and are an example of successful municipal ownership and operation. Although the lowest fare is about half a penny, or one cent, the lines are so well patronized that they are financially profitable. Most of them are of the overhead trolley system.

The attention given to pine galleries

them are of the overhead trolley system.

"The attention given to pipe galleries in London struck me very forcibly. They are placed in nearly all the principal streets absolutely independent of the underground railroads so that it is not necessary to tear up the streets when it is desired to lay wires.

HOTEL FOR \$500 A MONTH. Owners of the Hermitage Object to Lease Receiver Wants to Make. Justice Erlanger in the Supreme Court

reserved decision yesterday on an applica-tion by Gilbert H. Montague, as receiver for the Hotel Hermitage, for approval by the court of a lease of the hotel, which is at Forty-second street and Seventh avenue, to Timothy F. Paddell, the present lessee, at \$500 a month for two months.

The application was opposed by Cowen & Co., owners of the hotel building, on the ground that the proposed rental was grossly insufficient. James W. McElhinny, counsel for Cowen & Co., told Justice Erlanger that the encumbrances on the hotel amounted at present to \$499,602, including mortgages for \$470,000 and overdue taxes and interest. The fixed charges, said Mr. McElhinny, are \$656 a week, and it would be an outrage to permit making a lease at \$500 a month. Better have the hotel closed until a fair rental could be obtained.

Mr. Montague replied that Mr. Paddell's offer was the best he could get. the court of a lease of the hotel, which is

"In Paris what struck me particularly was the thoroughness of the French method of construction in all public works. Every little detail is carefully planned, and excavations for subways are carried on underneath the heaviest buildings without so much as causing a crack in the plaster.

"In Berlin they are just commencing to develop the underground railway system, but they have already elevated lines which will connect with the subways when built. These elevated roads are so ornamental that they add to the appearance of a street instead of detracting from it. The structure is made as beautiful as it is possible to design it and underneath are park lots with grass and flowers which invite instead of repel the people.
